

Flowers grow in the valley

Flowers Grow in the Valley, YAHUVEH GOD plants seeds to help water us help shape us, and as we grow, like a Flower grows, it takes time, and it takes care and effort to help the flower grow. We have to be shaped and molded into YAHUSHUAS(JESUS) image, and grow in the Fruits of the SPIRIT.

Sometimes we need to be reminded that, in the valleys in the waiting, we need to remember that YAH has HIS hand on us, We will not fall and HE is there to catch us. I know for me I need to be reminded at times that in these season's where we are being tested, and we are being Shaped and molded, thing's not always happen in the way we want them too, nor does it happen when we want it too. it is all in YAH's hands and HE is in control. It's in these times we have to remember that we need to Trust in HIM, not only that we CAN trust in HIM.

Hasn't HE always taken cared of you? I think of that and I think how many times HE has helped me in my life, and how many times my prayers have been answered, and they do not always happen the way I want them to nor when, but HE does answer HIS prayers, as long as it lines up with HIS will, HE does and as long as we obey HIM and listen to HIS voice and stay in HIS will, he Always will make a way for us and help us and lead us. What Fruits of the SPIRIT have you been wanting to grow more with?

How has YAH helped you in the seasons in the valleys where you are being shaped and molded and growing?
what lesson's did you learn?

Don't give up, keep pressing onward, YAH is with us every step.

A Song that has touched me recently, is *Flowers by Samantha Ebert*, I heard this song one day when I really needed it, and it really touched my heart. Check it out if you haven't heard it~
